

eviDent membership

Chief Investigators

Chief Investigators are eviDent members who provide 'the intellectual, administrative and ethical leadership'¹ to an eviDent research project or program.

It is essential that each eviDent project team is adequately supervised and supported; therefore, Chief Investigators must be full or part time academic staff members at a participating university,² experienced in clinical research and competent to undertake and lead a research project.

Associate Investigators

eviDent accepts Associate Investigator applications from all registered dentists and specialist practitioners working in a private practice, community health or other setting and who are members of the Australian Dental Association Victorian Branch (as the single member of the of the eviDent Foundation). While eviDent may extend to other States in the future, membership is currently restricted to practitioners registered and practising in Victoria.

Research Affiliates

eviDent Research Affiliates include retired dental professionals, practice managers, dental hygienists, dental therapists, dental prosthetists, oral health therapists, dental assistants and others who do not want 'hands-on' involvement with an eviDent project, but would like to contribute to eviDent research.

eviDent Research Affiliates voluntarily respond to eviDent surveys and participate in retrospective studies by allowing members of eviDent project teams to attend their practice and collect relevant data.

Research Collaborators

eviDent Research Collaborators include retired dental professionals, practice managers, dental hygienists, dental therapists, dental prosthetists, oral health therapists, dental assistants and other professionals who are not eligible to be eviDent Associate or Chief Investigators, but who are closely involved with different aspects of eviDent projects.

To become an eviDent member please complete an application form, available from the eviDent website: www.evident.net.au or from the Executive Officer, Meaghan Quinn on (03) 8825 4603.

¹ The University of Melbourne, Melbourne Research Office, Chief Investigator Responsibilities <http://www.research.unimelb.edu.au/azservices/ci>

² The University of Melbourne is the only participating university at the time of publication
